The AMERICANIZED **ENCYCLOPÆDIA** BRITANNICA

In connection with a Year's Subscription to this Paper, at regular subscription rates, we will furnish this grand work for

92.50 A MONTH FOR EIGHT MONTHS.

QUESTIONS.

ANSWERS.

It is a very simple matter. We have arranged with the Publishers of the Americanized Encyclopedia Britannica to take a large quantity of this work off their hands, thus securing a remarkably low price as well as singularly easy terms. We propose to give the whole advantage of this transaction to our subscribers, and offer to deliver the entire set of the Americanized Encyclopedia Britannica on payment of \$5.00 and your signing a contract to pay \$2.50 a month for 10 months, \$50 in all. This offer is made only in counsettion with a year's subscription to this connection with a year's subscription to this paper at regular subscription rates.

Why, that is only about eight

You can be thankful that you didn't accept his offer. If you'd done so and seen the Ameri-canized edition afterward you would have felt like kicking yourself. I suppose your canyass-ing friend told you that the Encyclopedia Bri-taunics was simply the most complete work of its kind ever published? So it is; he was right enough so far. It's a onumental work and cost more than a million

Why, no, and I don't believe it's

monumental work and cost more than a million dollars to get up. But there are spots on the sun, you know, and there are defects even in the Encyclopedia Britannica. Did he mention to you that you might look for Ulyeses S. Grant in it and not find a word about him? Of course he was, or pretty nearly so. But the Encyclopedia Britannica doesn't mention him for all that. And it doesn't say a word about Sherman either, nor about Sheridan, nor Hancock, nor Blaine, nor Cleveland, nor Harri-son, nor Flarriet Beecher Stowe, nor Julia Ward Howe, nor Elizabeth Stuart Phelps, nor Charles Stewart Parnell, nor Bismarck, nor Jeff Davis,

Hold on, hold on! Just tell me in one word if it says anything about anybody?

Oh, yes indeed. It contains some of the most magnificent blographies that ever were written.

—Macculay's life of Dr. Johnson, for example. But you see what they called "the plan of the work" excluded all mention of living characters. They wanted to see how a man would turn out first before they made room for his life in their volumes.

Ha! Ha! Excuse me, but I can't help laughing. I suppose your canvasser told you his Encyclopedia was a brand new book, just

Why, of course he did. He said it was only published last year.

Only published by HIS publishers he meant. But if he had spoken the truth about the matter he would have told you that the first volume of the latest edition of the Encyclopedia Britannica was issued fifteen years ago, and that the greater part of it was compiled at that date. So you see they didn't get General Grant in it after all. That depends on the kind of book you want. Let me ask you a question or two. You live here in the United States, don't you?

Why, of course I do.

do you want the most detailed information, an American city or an English town? An Amer-ican statesman or an English statesman?

What a question! Why, being an American, I want the most detailed information about matters of American interest, of course. All I em ever likely to want to know a out an English town or county is its location, population, reanifactures or other products. and a few generalities of that kind.

Just so. But, you see, the Encyclopædia Britannica wasn't compiled for the use of men like you. It was put together to be used by Englishmen in England. And, you see, they want the exact opposite of what you do, and the Encyclopædia Britaunica, very properly, gives it to them. It fills pages with the account of some insignificant English borough or county that you may never want to know anything about whatever, and gives a half dozen lines to some State or city here that you want the fullest particulars of, but about which an Englishman cares just nothing at all.

I see, I see. We need an Ameri-canized edi — and by jiming! Tint's the very thing you are ad-vertising. Am I right?

Right as a trivet, whatever that may be—I never saw one that I know of. But you're just exactly right, all the same. It's the AMERI-CANIZED Hocyclopsedia Britannica that we propose to put in every home in the West. The long-winded articles on petty British subjects have been cut down to the same length tint would have been given them had they been French or German subjects, and the articles on matters of American interest have been all rewritten and treated just as exhaustively as they would have been in the original work had they been specially interesting to Englishmen

I see, I see. Why it's a perfectly pleaded idea. The only wender substantially thought of a be-ore. And I suppose there an bitannica was compiled.

Any other improvements? This factting interesting.

Ten good sized volumes, excellently bound About 7,000 pages altogether, or 14,000 wide columns, equal to about 110 ordinary 12mo books.

Oh, yes, a few. The entire work has been re-

And only 2000 a month for it— \$30.00 in all. I'll have a set for pertain. There's only just one thing I would like.

Why, you see I hate to wait a rear to get the books complete. Can't I pay for them a little sooner and get them quicker in that way?

Ha! Ha! Ha! It seems as though we were ready for you at every turn. Why, of course, you can get them sconer. And you needn't pay any quicker on that account, either. My dear sir, you can get the books at once: by paying a first installment of \$5.00 the complete set will be delivered to you then and there

That settles it. Here's my first installment. I'm a subscriber to the Encyclopedia from this mo-

We cannot do that, as our sole object in handling these books is to increase our circulation; the only profit we get out of it, as can be readily seen, is the increased circulation of the paper; besides, the books cannot be obtained at any price except in connection with the paper.

That's reasonable, good day-

This offer also holds good for the Sunday and Seml Weekly editions.

THE SETT, 10 vols., and Daily Herald, 1 year, \$30,00 " Semi-Weekly Herald, 1 year,

> (Including a Premium receipt.) " and Sunday Herald, 1 year, - -

The above is for cloth binding; sheep, \$3.50 per sett extra half merroco, \$5.00 extra. A DISCOUNT OF 5 PER CENT. FOR CASH. The setts are now ready for inspection at the Herald

Just so. But you see, in these days of steam and electricity, and labor-saving machinery, a great deal can be done for eight cents a day, es-pecially when twenty or thirty thousand people club their money and each puts his eight cents into a common stock.

Dear me, whata world this is, to be sure. And is there anything else the matter with the book?

Yes, I thought so. Now tell me, about which

Right as a trivet, whatever that may be-

Well, rather. One of the best and most com-plete ever written. And there are four thou-sand new blographies besides. In fact, the work contains the life of every distinguished man or woman, American or foreign, now living, or who has died since the Encyclopedia Bri-

vised down to the present year for one thing. Then an entirely new set of maps has been added, including a separate map for each State Upon my word, I'm glad I told that canvasser to call again. If I hadn't met you I should have been finely stuck. Oh, by the way, how largen work is this of yours?

And that is?

If you hear of anybody else who would like some information about this really extraord,

nary offer just tell him to send a postal with his address on it to us, and his case will be attended to promptly. Just one more question: I would like to get this Encyclopedia without the paper.

Good day.

What is this new scheme about which folks are talking—offering to give some standard work or other at an absurdly low figure, on subscribing to this paper for one year at the regular subscription rates?

Well, that may be so. But see here. What is this Americanized Encyclopedia youpropose to offer, anyhow? I never heard of it before. Now if it was the original Encyclopedia Britannie syonwere offering I should give young subscription in a hurry. Then's need to work out to be a sure of the wants party dollars for the set, three times what you ask for your Encyclopedia.

That's exactly what he said, the very words. He said, too, that it was accepted as he at andard words of references by ell English-social, in sohe, is, not in every Faglish and amorican himrer,

so, either. General Grant was as well known in England as he was Lithis country.

So. Well, I certainly don't want an Encyclopaedia that will not tell meanything about the great men of the world until after they are dead. Why, it's jost cancily while they are nive that I want to know about them most. But see here, Wantron say deem'thoult gether. Why ins' there only thing saidabout General Grant? He was dead long before this last ecition of the Encyclopaedia Britannica was published. Guess you've traveled off the record just a little bit, my friend?
